Only use a channel once you have reserved it with a peg. Remove your peg once you are powered off.

- DJI & Walksnail** Use 20MHz/25Mbps low bandwidth modes only
- DJI v2/O3** Must be in manual channel mode. May cause interference across R3-R5.
- Analogue mid-bands** Use at own risk - F5, F7, A3, A5, B2, B4, B6, B8, E4, E8
